

End to End Testing of an NBFC to Bank Conversion **FLEXCUBE UBS , OBDX, LOS, CRM and HRMS systems**

Business Outline – Client

An NBFC operating in western states of India with a network of 300 branches and \$ 1.6B in Assets. The NBFC’s plan was to convert to a bank and raise the bar with an ambitious target of 18 months and the IT track with 12 months.

Starting in a competitive market, the bank decided to adopt a best-of-breed approach towards customer service and had a wide tech-stack to configure, test and commission.

Challenges Faced

- Over 10 major and minor applications were being commissioned simultaneously
- The software was tested, integrated, and executed simultaneously with the bank staff being onboard

Requirements

End-to-end testing to be incorporated with the wide application stack as follows:

- FLEXCUBE UBS
- FLEXCUBE OBDX
- NewGen LOS
- CRMNext CRM
- Oracle HRMS

Quick Facts

Industry

- Non-Banking Financial Company

Influential Factors

- ~ 300 Branches
- ~ \$ 1.6B Assets Strength

Headquarters

- India

Yethi Delivery

- Streaming workflow solutions
